### Key Responsibilities:

- Maintain high-quality macroeconomic databases in MS Excel
- Daily update from public sources (websites, publications etc.) of key economic and financial indicators with focus, discipline, and speed
- Implement and enforce in-house measures of quality assurance and control
- Regular contact with sources of information
- Research topics of interest to global clients
- Database expansion as guided by market feedback
- Occasionally prepare short analytical pieces for product promotion

### Qualifications:

- University Degree in Economics, Finance, Statistics or related
- Good knowledge of macroeconomic statistics
- Numeric and analytical skills, rigorous attention to detail
- Excellent command of MS Excel
- Fluent knowledge of English
- Positive and collaborative personality

### What we offer:

- Full-time job
- Great working environment in an international company
- Open and friendly working atmosphere
- Excellent remuneration package
- Ability to work and collaborate, share knowledge and experience with many professionals globally

 Additional health insurance	 Additional paid leave - total 25 days	 Life insurance	 Food vouchers
